Quality and versatility in a compact product.

THE WORLD'S BEST SELLING BURSTER / DECOLLATOR THAT DOESN'T COST THE WORLD.

Are you wasting your money on forms processing and don't even realize it?

It is rather amazing how many companies spend a great deal of money on computer systems that will process data more quickly, but at the same time, still handle forms manually.

Do you know how long it takes someone to trim, burst and sort 100 four-part forms?

You would be surprised how much working time is lost by trimming, bursting, and sorting forms manually – and you probably don't even notice that it is costing you money and reducing productivity levels.

The V 5000 burster/decollator combination can process this volume in just minutes!

- Margin trimming**
- + Bursting**
- + Decollating**
- + Sorting**

...In one step!

More importantly, your employees can use their valuable time more productively.

In addition, the V 5000 improves the appearance of your forms by trimming the margins cleanly.

The model V 5000 with its modern electronics and reliable mechanics offers you an amazing service:

- Control panel with LED display.

- Tractor feed for accurate paper transport.
- Individually selected margin cutters, which means that there is no adjustment of knives necessary when changing form lengths.
- Electronic length setting with 6 standard sizes.
- Electronic format selector lock to prevent incorrect use.
- Multi-part forms can be sorted into a maximum of 4 stacks.
- Automatic "paper-out", "stacker full", and "jam" control ensures that the machine can work unattended.
- Automatic jam clearance.
- Constant speed of 2,500 12"-forms per hour.
- Paper tray and waste basket.
- Easy relocation because the machine is mounted on casters.

A number of options are available to improve the versatility of your operation. These options can include a center slitter, a stacker for continuous forms (for margin trimming only) or the programming of additional form lengths.

There are more than 16,000 users worldwide that rely on this innovative, patented system for bursting and decollating from HEFTER Systemform and the list of happy customers is growing daily!
