# Press Release

## **MICROPLEX launches World's first Mid-range, Continuous form, Duplex Laser Printer.**

The SOLID F160 is a twin engine Laser solution, capable of 160 impressions / minute, at a *fraction of the cost* of other high-end Duplex offerings!

**Solon, Ohio – November 20, 2003:** MICROPLEX proudly announced at XPLORE - Atlanta, the launch of the World's first *mid-range*, continuous form duplex laser printer product. "Now, for the first time ever, applications that require; Duplex, 2-up, Laser quality production, but can not justify the expense of hundreds of thousands of dollars of investment, finally have a solution ... for a fraction of the cost" states Andre Fedak, President of MICROPLEX. "The F160 product has been developed and targeted to those markets, such as MICR Checks and Monthly Statements, that require a low cost, easy-to-operate, twin engine duplex solution. These targeted customers can now manage their print production in-house and produce laser quality duplex output, at a monthly duty cycle of 2,000,000 impressions per month." continues Mr. Fedak.

MICROPLEX Electronic Printing Systems, Ltd. is a Solon, Ohio based printer manufacturer and is a leader in continuous form laser printers, for mid-range production applications. MICROPLEX's products are available worldwide through their very experienced Channel Partners and MICROPLEX has offices in the USA, Germany, and France.
