

SOLID F50

MICROPLEX®

The SOLID F80 offers the versatility, reliability, and speed many expect only from far more expensive printers. Checks, integrated forms, direct mail, and labels of all kinds can be generated with top quality results on this continuous laser printer. Thanks to its maximum print width of 17" and its ability to operate in two-up mode, such applications can be printed with minimal paper waste at an optimal page cost. An impressive monthly print volume of 400,000 pages along with a straight paper path assure users of optimum reliability. And with a print speed of 80ppm (letter-size) in two-up mode, the SOLID F80 is MICROPLEX's swiftest printer yet.
