# Press Release

## **MICROPLEX announces an upgraded, environmentally friendly, continuous form, production laser printer**

The SOLID F60HD has been enhanced, upgraded and is now the newest addition to the MICROPLEX family of *continuous form laser printers*.

**Bedford, Ohio – January 15<sup>th</sup>, 2008:** MICROPLEX announced the launch of the newest member to their family of continuous form laser printers, the SOLID F60HD. The SOLID F60HD offers all of the technology features of the current SOLID F60 and also offers High-Definition print resolution and meets all RoHS environment standards for the European Community!

“The SOLID F60HD is still our low-cost replacement alternative to the higher priced, aging, InfoPrint 62 and L5535 installed base.” states Mark Merhab, Vice President of Sales for MICROPLEX. “This product is an excellent solution for the production label environments that require continuous form, laser print production. MICROPLEX has also completed our Customized Solution for the IPDS/SCS/AFP environments, ensuring productive connectivity in these print markets. The F60HD offers a small foot print, 600x600 print resolution, 59 pages/minute print speed, high-duty cycle durability, and flash fusing technology for the versatility to print on various media types. The F60HD is also **RoHS** (**R**estriction of **H**azardous **S**ubstances) compliant, so it meets all environmental standards for Europe, ensuring compliance for now and into the future for the USA.” continues Mr. Merhab.

MICROPLEX Electronic Printing Systems, Ltd. is a Bedford, Ohio, based printer manufacturer and is a leader in continuous form laser printers for mid-range production applications. MICROPLEX's products are available worldwide from very experienced channel partners and MICROPLEX has offices in Germany, France, Canada and the USA.
