Press Release

MICROPLEX, Ltd. launches new, mid-range production, continuous form laser printer

The SOLID F98, is the new, versatile, continuous form laser printer solution by MICROPLEX

Solon, Ohio – January 21, 2004: MICROPLEX, Ltd. proudly announced the launch of a very versatile, continuous form laser, the SOLID F98. The SOLID F98, utilizing a combination of design criteria and technology-rich features, make it the most versatile product in it's class. These features include: print speeds of 98 pages/minute in two-up Letter, 600 x 600 resolution, LED Array and OPC drum imaging system, Xenon Flash Fusing system and a full 17" print width.

"We are very pleased to add the SOLID F98 to our product offerings" states Andre Fedak, President of MICROPLEX, Ltd. "This product offers the versatility and cost-of-ownership that the mid-range continuous form market segments demand today. The F98 is yet another product offering that MICROPLEX has released that solidifies our true commitment to these continuous form laser markets" continues Mr. Fedak.

MICROPLEX, Ltd. is a Solon, Ohio, based printer manufacturer and is a leader in continuous form laser printers for mid-range production applications. MICROPLEX's products are available worldwide through very experienced channel partners and have offices in Germany, France and the USA. For more information please call 1-877-997-6543 or visit the company website: www.microplex-usa.com
